Jim Rice

It was the 1961 NFL Championship Game that first caught author and football historian, Jim Rice’s attention. A successful football team from small Green Bay, Wisconsin annihilated the powerful New York Giants, 37-0 and from that point on, Jim, a native New Yorker, could never get enough of sports history. Jim became a history teacher (no surprise), and school superintendent. A graduate of Marquette University, Jim began to work on his passion for the Packers full-time after Super Bowl XLV and retiring from school administration. He resides in Wisconsin with his wife, Sue.
